[5] SDG5: GENDER EQUALITY

[5.6] Women's progress measures

[5.6.4] Childcare facilities for students,

Accessible childcare facilities for mother to attend university courses students

Early Childhood Development Centre Makara

Universitas Indonesia has accessible childcare facilities for students through Early Childhood Development Centre Makara. It is a Special Work Unit with facilities for Early Age Education for all Universitas Indonesia members (lecturers, employees and students). This facility is located at the Faculty of Psychology. It has two programs which are day care and preschool programs which the program runs from 8 AM until 4 PM.

Early Childhood Development Centre Makara is a model park for childcare which is in accordance to health and psychology education for 1 until 4 year-old children. CDMP was built together by the Faculty of Psychology, Faculty of Medicine, Faculty of Dentistry, and Faculty of Nursery of Universitas Indonesia. CDMP is a development and educational laboratory for children as a form of contribution for Indonesian citizens, especially children in early childhood. With that being said, students are able to study smoothly without having to worry about their children.
