- [6] SDG6 - Clean Water and Sanitation
- [6.3] Water usage and care
- [6.3.3] Free drinking water provided

Description: The School of Environmental Science and The School of Strategic and Global Studies provides free drinking water for all lecturers, employees, and students with water purification products. Water from a water purifier is more straightforward than bottled water and easy to use. It helps reduce the use of bottled mineral water which usually ends up in a waste treatment site. Using a water purifier also helps reduce the amount of water discharged during the production of bottled drinking water.
