

FEB UI Provides Easily Accessible Facilities for People with Disabilities

Faculty of Economics and Business universitas Indonesia highly values equality in providing the best learning experience for its students without exception. FEB UI ensures that the academic affairs unit of the faculty provides inclusive academic service for all students, including those with disabilities. In addition, the education programs are designed to meet the needs of students with various background, learning and thinking styles, as well as different ability levels.

Every student is assigned a lecturer as an academic advisor and a senior student as a personal mentor who will be delighted to help student related to his/her study. Students with disabilities can ask extra supports and helps from the personal mentor/ academic advisor if they find difficulties in their studies. FEB UI provides students with disabilities with dedicated scheme, as follow:

- Longer admission period
- Flexible teaching methods (Online, offline, synchronous, asynchronous) and a personal tutor to better understand the lecture topics (to assist notetaking or audio recording)
- Accessible seating in the classrooms
- Accessible course materials formats
- Accessible building and facilities (ramps, elevators, specially designed toilets)
- More guidance in preparing exams and more supports during exams
- Extended time to complete an assignment and/or exam
- Extra time to finish course
