

## **SDG 14: LIFE BELOW WATER**

### **14.2 Supporting aquatic ecosystems through education**

#### **14.2.2 Sustainable fisheries (community outreach)**

Offer educational programmes or outreach for local or national communities on sustainable management of fisheries, aquaculture, and tourism.

#### **Description**

In 2022, one of the lecturers from the Vocational Education Program, Universitas Indonesia, carried out community service activities entitled "Increasing Community Capacity Through the Digital Literacy Program in the Creative Economy Sector as an Effort to Develop a Digital-Based Marine Tourism Village in Komodo Village-Labuan Bajo". Through this community service, it is hoped that we can build a sustainable marine tourism village using the application of digital technology and human capital, which will produce an innovative, creative, and competitive village, that can increase economic growth and development in the archipelagic region.
