

**Faculty:** Faculty of Mathematics and Natural Sciences

**University:** University of Indonesia

## **[2] Zero Hunger**

### **[2.3] Student hunger**

#### **[2.3.1] Student food insecurity and hunger**

The Faculty of Mathematics and Natural Sciences (FMIPA) at the University of Indonesia provides a canteen and a cooperative for students and FMIPA community members. The canteen offers a variety of clean and nutritious food options at affordable prices. With this facility, students can easily access healthy meals that meet their nutritional needs while engaging in campus activities.

The canteen promotes an eco-friendly theme, featuring plenty of open spaces and designed to use less electricity. The cooperative also supplies various daily necessities, helping students to navigate campus life more comfortably.

#### **[2.3.2] Students and staff hunger interventions**

The Faculty of Mathematics and Natural Sciences (FMIPA) at the University of Indonesia provides a canteen and a cooperative for students and FMIPA community members. The canteen offers a variety of clean and nutritious food options at affordable prices, including juices, vegetables, and meats. The meals served are nutritious and meet the standards set for students and staff at FMIPA UI, ensuring that everyone has access to healthy and balanced options.

#### **[2.3.3] Sustainable food choices on campus**

The canteen at the Faculty of Mathematics and Natural Sciences (FMIPA) at the University of Indonesia offers sustainable food options on campus. With a focus on using fresh, locally sourced ingredients, the canteen supports environmentally friendly agricultural practices. The menu includes a variety of healthy and nutritious choices, such as vegetables, fruits, and protein sources, all prepared to high hygiene standards.

Additionally, the FMIPA UI canteen is designed to minimize environmental impact, considering waste management and energy-efficient practices. With this approach, the canteen not only meets the nutritional needs of students and staff but also contributes to environmental sustainability on campus.

#### **[2.3.4] Healthy and affordable food choices**

The food in the canteen at the Faculty of Mathematics and Natural Sciences (FMIPA) at the University of Indonesia is designed to be healthy, nutritious, and clean. With a variety of menu options rich in vegetables, fruits, and protein sources, the canteen ensures that students and staff receive the necessary nutrition to support their daily activities. All meals are prepared to high hygiene standards, providing comfort to all visitors. Thus, the FMIPA UI canteen is an ideal place to enjoy healthy and delicious meals.
