Description:

Universitas Indonesia has a policy on pay scale equity including a commitment to measurement and elimination of gender pay gaps. It means that UI has to adjust its policy to align with the policy issued by the government, especially in its remuneration system.

Universitas Indonesia applies the 3P remuneration system consisting of *Pay for Person*, *Pay for Position*, and *Pay for Performance*. In UI, gender does not factor the disparity in the workers' remuneration. Listed below are the factors that account to each component of the remuneration:
