

SDG 17: PARTNERSHIPS FOR THE GOALS

17.2 Relationships to support the goals

17.2.2 Cross sectoral dialogue about SDGs

Initiate and participate in cross-sectoral dialogue about the SDGs, e.g. conferences involving government or NGOs.

Description

The Vocational Education Program of Universitas Indonesia held the 6th International Conference on Vocational Education Applied Science and Technology (ICVEAST) 2023 on 25-27 July 2023 in Surakarta, Central Java. This conference has the theme "Virtuosity Collaboration for Sustainability Development and Innovative Technologies Goals 5.0 (Vocational 5.0)." In this conference, there is a Business Talk program with the theme "Global Creative Ecosystem based on Technology and Culture: Indonesian Youth Movement." With speaker Dr. Ir. Dwi Heriyanto B. M.T. , Shinta Dhanuwardoyo, Mareta Pratiwi, Dr. Achmad Adhitya. The Global Creative Ecosystem is an ever-evolving network of creative professionals from all over the world. It is a platform that encourages collaboration and innovation, allowing creatives to share ideas and resources, network and create new opportunities. The Indonesian Youth Movement for Global Creative Ecosystem is an initiative that seeks to empower young people in Indonesia to become active participants in the global creative economy. The movement is driven by the belief that young people are the key to creating a vibrant and sustainable creative economy for Indonesia. Through this movement, young people are encouraged to develop their creative skills, network with other creatives, and contribute to developing the innovative ecosystem in Indonesia. Vocational higher education - a higher education level program that aims to prepare workers who are experts and skilled in their fields - plays an essential role in educating qualified and globally talented prospective Indonesian workers. Input from various parties is undoubtedly needed to design the right curriculum according to the needs of society and industry. Therefore, holding the Business Talk is very appropriate because, through this activity, input can be obtained from all stakeholders so that educational institutions and all related parties can implement a suitable policy formulation (white paper/policy brief).
